

red82 is excited to announce that CFA Cat Breeds, the official application of the Cat Fanciers' Association, is now available from the iTunes store.

March 25, 2010 – CFA Cat Breeds provides the user with show standards, photographs, profiles and history for all recognized CFA breeds, as well as a user-editable list of favorites. The ease of use and depth of information will make CFA Cat Breeds invaluable for pet lovers and professionals alike.

CFA Cat Breeds showcases the work of renowned feline photographer Richard Katris of Chanan Photography, with over 30 years of experience and hundreds of stunning, show quality, breed images. The interface was designed by Orlando advertising agency Wilkie Birdsall.

red82 is founded on the principle that software should be fast, functional, and beautiful.
